DETAILED ACTION

Response to Amendment

1. Claims 1 and 3-9 remain pending.

Response to Arguments

2. Applicant's arguments are not persuasive. There is no evidence of record that the invention of Meguriya has less heat and light resistance than the claimed invention. Further, for the purposes of searching and applying the prior art, absent a clear indication *in the specification or claims* of what the basic and novel characteristics are, "consisting essentially of" will be construed as equivalent to "comprising." See MPEP 2111.03, emphasis added. Neither the instant specification nor the instant claims clearly identifies heat and light resistance as a basic and novel characteristic of the invention.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 3-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Meguriya et al. (US 4,714,265 A).

A. This reference is applied herein again as set forth in the prior Office action.

B. Applicant states, in the paragraph bridging pages 5-6, that this reference teaches the newly-added components (A), (B), (C), and adhesion promoter, and optional additives.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
